

CLAIMS

I claim:

1. A mailbox signal flag mounting apparatus, comprising:

a stem having a mounting aperture;

5 a detachable stop tab attached to said stem; and

a detachable bushing attached to said stem.

2. A replacement mailbox signal flag, comprising:

a stem having a mounting aperture;

a detachable stop tab attached to said stem;

10 a detachable bushing attached to said stem; and

a flag portion attached to the distal end of said stem in relation to the mounting aperture.
